G Puja Chavan

9108718522 | gpujachavan@gmail.com | Linkedin | Github

OBJECTIVE

A Motivated Computer Science student with strong skills in **SQL, Excel, Python, and data analysis**. Experienced in **troubleshooting, technical documentation, and reporting**, with a proven ability to **analyze data, resolve issues, and support product development teams**. Eager to contribute to **client success, workflow improvement, and analytics services**.

Education

B.Tech Computer Science and Engineering | CMR University — CGPA: 8.87 — 2022 - *present*

Bishop Cotton Girls School | Bengaluru — Percentage: 87.88

TECHNICAL SKILLS

Programming Languages: Python, SQL, C
Machine Learning and AI: TensorFlow, PyTorch, Scikit-learn
Data Tools: Excel, Pandas, NumPy, Seaborn
Database: SQL Databases, Data analysis, Visualization
Web Development: HTML, CSS, JS

INTERNSHIP

ML Intern | InternPe| Bengaluru, Karnataka — March-April '25

- Developed a **diabetes prediction model using Support Vector Machine (SVM)**, gaining hands-on experience in applying machine learning techniques to healthcare data.
- Prepared **documentation and reports** on project progress, methodology, and outcomes.
- Collaborated with team members to improve workflows and present findings effectively.

PROJECTS

Diabetes Prediction System — Oct-Dec '24

- Built a machine learning model using logistic regression, achieving 85% accuracy.
- Processed data, applied feature scaling, and performed model evaluation.
- Created reports, issue logs, and documentation for reproducibility and clarity.

Movie Recommendation System — Jan-Mar '25

- Implemented collaborative filtering for personalized movie recommendations.
- Processed large datasets, extracted key insights, and improved system accuracy.
- Prepared technical documentation and visualized results to explain model performance.

Extra Curricular Activities

- **Student President, Literature Club & Event Head, Tech Club** – Demonstrated leadership, stakeholder management, and strong verbal/written communication by organizing debates, coordinating events, and collaborating with faculty, peers, and external participants.
- **Hackathon & Debate Competitions** – Achieved **top positions in debate competitions and hackathons**, showcasing problem-solving, abstract thinking, analytical thinking, and persuasive communication while developing innovative solutions under pressure and presenting complex ideas effectively.
